Bike Store Management System

Course: CSE299 – Junior Design

Section:12 Group: 05

Team Members

1. Md. Munam Rahman 2222824042

Supervisor: Ms. Syeda Sarita Hassan [SSH1]

Weekly Update: 02

Reporting Period: 04.03.2026 – 11.03.2026

1. Introduction:

The Bike Store Management System is a dynamic web-based platform designed to manage and showcase products in a bike store. This week's tasks concentrated on five major components of the user interface and functionality to enhance the user experience and provide comprehensive product information.

2. Work Completed:

A. About Us Page:

The "About Us" section was developed to communicate key service details. It includes subsections: What We Offer, Why Choose Us?: Highlights of our customer support, pricing, and reputation. Location, Quality, and Service: Details about our store locations, assurance of quality, and commitment to service.

B. Show Products:

This page dynamically displays bike images from the database. PHP was used to fetch and display images in a responsive grid layout with CSS styling for visual consistency.

C. Product Info:

Provides detailed specifications of each bike such as model, engine type, pricing, and features.

D. Show Brands:

Divided into current stock brands and upcoming brands to help users see both present inventory and future availability.

E. Compare:

Implemented a comparison feature where users can select up to three bikes. The selected bikes are displayed side-by-side showing key attributes like engine, mileage, price, product type, available quantity, release date and product.

3. Conclusion:

This week, we finished five important parts of our bike store website. We used **PHP** to make the website work with data and show different pages. We used **CSS** to make the website look nice and clean. Now users can see bike products, read about the store, view brands, and compare up to three bikes.

Who We Are

At Dream Ride, we are more than just a bike and scooter shop – we are a team of passionate riders, mechanics, and customer service experts dedicated to bringing you the best in two-wheel transportation. Our journey started with a simple mission: to provide high-quality bikes and scooters accessible and affordable to the people of Dhaka. Over the years, we have built a reputation for reliability, authenticity, and customer satisfaction.

What We Offer

Our showroom boasts a wide selection of top brands, including Honda, Yamaha, Suzuki, TVS, Bajaj, Hero, and more. We carefully curate our collection to include models that suit various preferences, from fuel-efficient commuter bikes to high-performance sports motorcycles and stylish, easy-to-handle scooters.

In addition to bikes and scooters, we also provide:

- Spare Parts & Accessories: Helmets, riding gear, tires, batteries, and more.
- Financing Options: Easy installment plans and bank loan assistance.
- Repair & Maintenance Services: Experienced mechanics to keep your bike in top shape.
- Trade-in & Exchange Services: Upgrade your ride with hassle-free trade-ins.
